SelfEnroll for Employees
Focus on people, not paper.

You probably wear many hats. So when the job is overwhelming—especially during open enrollment—why deal with piles of paperwork, chasing down enrollment forms, and manually updating spreadsheets to track enrollment status?

SelfEnroll for Employees is an AutoEnroll add-on that simplifies enrollment for everyone, saves you time and creates a better experience for your employees.

A rule-based platform means employees see the right benefits, at the right time, and can view their cost per pay period.

A simplified enrollment flow removes insurance jargon, reduces confusion, and puts plan information and important documents at members' fingertips.

The MyChoice Mobile App makes enrollment, benefits information, and ID cards available from anywhere, at any time.

Administrator reports replace manual enrollment, payroll deduction, and beneficiary tracking.

Available multi-pronged approach that includes mobile, email, online and print communications, in-person and virtual meetings, one-to-one or call-center enrollment.

Benefits. Technology. Heart.
